

INSPEKTO
AUTONOMOUS MACHINE VISION

Clutch Connector - Pins Inspection

Inspection Use Case

Application

Integrity & milling swarf / chips leftovers

Inspection Objective

Ensure Integrity of clutch connector pins and detect milling swarf / chips leftovers

Possible Defects

Milling pieces & damaged connector pins

Production Environment

PLC communication

I/O

Part Description

Name

Clutch Connector Pins

Materials

Metal

Part Size

10 cm radius

Production process

Milling

Industry

Automotive

Using INSPEKTO S70
